

Tunnel Tumbler

THE HIVE HAS AWOKEN You are the Garden Guardian, a fiercely territorial mole digging deep beneath the soil. An infestation of ravenous Borer Beetles and acid-spitting Bombardiers has invaded your underground home. Grab your trusty pneumatic dart-pump, carve out your tunnels, and defend your territory!

DEFENSE MECHANICS

- **The Pneumatic Pump:** Fire your air-dart to latch onto an enemy bug. You must rapidly pump the nozzle four times to inflate and completely burst the invader.
- **Garden Stones:** Massive boulders are buried throughout the soil. Dig out the earth directly beneath them to send them crashing down on pursuing bugs for massive bonus points.
- **Swarm Frenzy:** Do not stay in one place for too long! If you idle, the bugs will enter a frenzy and chew a direct path through the solid earth toward you. They cannot be targeted until they break through into an open tunnel and re-materialize into their physical forms.

SCORING & SURVIVAL

- **Deep Earth Multiplier:** Popping bugs in the deeper, darker layers of the soil yields a significantly higher point value.
- **Flanking Maneuver:** The Bombardier bugs can spit lethal acid horizontally. Catching one from the side and bursting it while it is facing horizontally awards a double score multiplier.
- **Extra Lives:** You earn a bonus mole at 10,000 points, another at 40,000 points, and every 40,000 points thereafter.
- Obtain flowers for bonus points

Supports keyboard (2, 4, 6, 8 keys and Space), SNES controller and joysticks (including Stupid Pet Tricks). For one or two players.

Requirements: 32k PET (3032, 4032, 8032)
